

PHD OR INDUSTRY?

SHAPING THE FUTURE BY APPLICATION-ORIENTED RESEARCH

Are you interested in Sustainable Mobility, Circular Economy, Green Steel, Renewable Fuels & Chemicals or Hydrogen Economy?

Do you need decision support if your next step should be industry or PhD?

Join us for this information event to discover and discuss research opportunities at the Chair of Operations Management:

- ✓ **Current Research Projects and Topics We Offer:** Explore our research areas *Circular Economy*, *Sustainable Mobility* and *Renewable Fuels & Chemicals*.
- ✓ **Benefits and Challenges of Pursuing a PhD:** Hear firsthand experiences and tips from our interdisciplinary PhD team with a broad range of study backgrounds like business administration, business engineering, chemical engineering, data science or mathematics.
- ✓ **Application Process and Support During your PhD:** Learn about open positions, application steps, and the research pathway towards your PhD.
